

REDRY SHIELD

GENERAL

Pandser Redry Shield is a problem-solving water absorber in granular form, which can be used specifically for leakages and flooding. Pandser Redry Shield is made of acrylamide copolymer and absorbs up to about 200 times its own weight in water.

APPLICATIONS

Pandser Redry Shield is an ideal problem solver for:

- Roofing and Gutter repairs
- Extracting moisture from hard floors (wood, concrete, tiles)
- Flooding on the floor covering

AVAILABILITY

Pandser Redry Shield is available in following packaging:

Product description	Article number	EAN Code
Pandser Redry Shield, 800 gram	WKFEP450-1001	8713331029542

APPLICATION

Store Pandser Redry Shield in dry, well-ventilated area at min. +5°C to +30°C, in the original sealed packaging, and for up to 24 months after production date.

Roof and gutter repairs:

- Sprinkle a layer of Pandser Redry Shield of at least 2x the water height well around the area to be repaired.
- The absorbed water creates a water-sealing/closing dike.
- Then spread a thin layer of Pandser Redry Shield on the area to be repaired.
- Wipe off this thin layer after about 5 minutes, leaving the roofing or gutter drier and ready for repair.

Remove moisture from hard floors (concrete or tiled floors) in case of flooding and/or water damage caused by e.g. fire:

- Sprinkle a thin layer of Pandser Redry Shield over the wet concrete or tile floor.
- Let it soak in for about 5 to 10 minutes.
- Remove the granulate with broom or suitable vacuum cleaner.

Flooding on the floor covering/carpets:

- Sprinkle Pandser Redry Shield over the wet spot and, if necessary, dab it into the floor covering.
- Let it retract for about 5 to 10 minutes.
- Remove the granules with a broom or suitable vacuum cleaner.

Repeat the actions, if moisture is still present.

When the work is finished, always dispose of the remaining granulate by throwing it in the grey waste container.

SAFETY DATA SHEET

For current and detailed information regarding chemical composition, safety aspects, handling, transport, storage and personal protection, etc., please refer to the Safety Data Sheet (SDS) of this product. Your supplier is in possession of the most recent document. You can also request it from Berdal. For people without allergies, Pandser Redry Shield is not harmful on skin contact.

Pay attention!!! Risk of slipping. Do not walk in the water absorber, this can cause slippery soles.

Do not ingest/not for internal consumption.
